

iC group of companies

Technical field Transport &
Mobility

We are experts in complex engineering projects, providing interdisciplinary & technical solutions.

www.ic-group.org

Integrative solutions for complex engineering projects based on a broad spectrum of experience and international know-how

A strong foundation.

As a company of chartered engineers, iC is a licensed expert in the following areas:

Civil engineering - structural engineering

Mechanical engineering

Forestry & wood management

Earth sciences

Electrical engineering

Environmental engineering & water management

**Interdisciplinary expertise
helps us keep our finger on
the pulse.**

Project planning and computation

Tendering and award of contract

Project management

Control and monitoring

Surveys and consultancy

Due diligence

**Passion & principles
are not opposites.**

iC has a certified **ISO 9001-2015** and **ISO 14001-2015** quality assurance program in place.

According to iC's policy, which is based on the **Compliance Management System**, our business activities are conducted strictly in line with all applicable laws, rules and regulations.

Vienna · Salzburg · Villach · Ybbs · Innsbruck

Athens · Belgrade · Bucharest · Brisbane · Greifenberg

Kiev · Ljubljana · Lund · Priština · Sarajevo · Skopje

Sofia · Tbilisi · Tirana · Toronto · Varaždin · Zagreb

Ready for the challenges of
the future – worldwide.

With **more than 600 hundred colleagues** we provide solutions for projects worldwide, based on our global know-how, competencies on site and experience in **100 countries**.

Technical fields

The technical fields of iC offer **solutions for complex tasks** in the area of **conflict between society, politics, environment and economy.**

Transport & Mobility

Strong engineering skills, smart technologies and a clear understanding of mobility requirements are the basis for a capable transport infrastructure and reliable services

Transport & Mobility

Services

Planning and cost estimates

Applications for project financing

Studies on feasibility, economic efficiency and environmental compatibility

Technical planning – concepts and details

Tendering according to national and international guidelines

Tender evaluation and procurement support

Contract management

Site supervision according to national and international guidelines (FIDIC, EU PRAG etc.)

Supervision of IT system integration into transport infrastructure (ITS)

Highway E60 Samtredia – Grigoleti

Project Overview

Client: Road Department of the Ministry of Regional Development and Infrastructure of Georgia

Location: Georgia

Timeline: 2013–2021

Services: Site supervision, FIDIC Engineer's services, contract and claims management

© iC group

Railroad line Nikšić – Podgorica

Project Overview

Client: Railroad Infrastructure of Montenegro Željeznička
Infrastruktura Crne Gore AD (ŽICG)

Location: Montenegro

Timeline: 2018–2022

Services: Topographical surveys, geotechnical investigations,
rockfall modelling designs, specifications, tender documents,
procurement support, site supervision/FIDIC engineer,
project & contract management support
