

iC group of companies

Technical field Technical Building
Equipment

We are experts in complex engineering projects, providing interdisciplinary & technical solutions.

www.ic-group.org

Integrative solutions for complex engineering projects based on a broad spectrum of experience and international know-how

A strong foundation.

As a company of chartered engineers, iC is a licensed expert in the following areas:

Civil engineering - structural engineering

Mechanical engineering

Forestry & wood management

Earth sciences

Electrical engineering

Environmental engineering & water management

**Interdisciplinary expertise
helps us keep our finger on
the pulse.**

Project planning and computation

Tendering and award of contract

Project management

Control and monitoring

Surveys and consultancy

Due diligence

**Passion & principles
are not opposites.**

iC has a certified **ISO 9001-2015** and **ISO 14001-2015** quality assurance program in place.

According to iC's policy, which is based on the **Compliance Management System**, our business activities are conducted strictly in line with all applicable laws, rules and regulations.

Vienna · Salzburg · Villach · Ybbs · Innsbruck

Athens · Belgrade · Bucharest · Brisbane · Greifenberg

Kiev · Ljubljana · Lund · Priština · Sarajevo · Skopje

Sofia · Tbilisi · Tirana · Toronto · Varaždin · Zagreb

Ready for the challenges of
the future – worldwide.

With **more than 600 hundred colleagues** we provide solutions for projects worldwide, based on our global know-how, competencies on site and experience in **100 countries**.

Technical fields

The technical fields of iC offer **solutions for complex tasks** in the area of **conflict between society, politics, environment and economy.**

Intelligent technical systems for sustainable and energy-efficient operation of buildings and infrastructure.

Technical Building Equipment

Services

- Planning and technical construction supervision
- Accompanying control (deadlines, costs, quality)
- Technical expertise and consulting services
- Electromagnetic fields (EMF) in power engineering
- Technical due diligence and project audits
- Specialization in hospitals, educational facilities, tunnel projects and district heating

Technical Building Equipment

Renewal Cooling Plants UZA II

Project Overview

Client: University Vienna

Location: Vienna, Austria

Timeline: 2019–2021

Services: Project management, local construction supervision for the trades HVAC, ET, structural engineering

© iC group

Technical Building Equipment

Koralmbahn Graz - Klagenfurt

Project Overview

Client: ÖBB-Infrastruktur AG

Location: Austria

Timeline: 2020–2024

Services: Site supervision mechanical facilities, site supervision electrical facilities

Technical Building Equipment

Residential building North 19

Project Overview

Client: WINO GmbH

Location: Vienna, Austria

Timeline: April 2019–December 2019

Services: Controlling for construction projects

© iC group

Technical Building Equipment

Archdiocese of Vienna - Reconstruction Archbishop's Palace

Project Overview

Client: Building office of the Archdiocese of Vienna on behalf of various organizational units

Location: Austria

Timeline: 2005–2012

Services: Planning, tendering and site supervision for structural engineering, building physics, electrical engineering, HVAC, instrumentation and control, safety, noise and vibration
